Experience

NTT Data / iOS Engineer

August 2024 - Present, Remote

- Developed and maintained investment-related features for a large-scale banking mobile application.
- Worked primarily with Swift, UIKit, Clean Architecture, and MVVM.
- Applied clean separation between Domain, Data, and Presentation layers to improve maintainability and testability.
- Worked closely with backend and QA teams in an agile environment.

Baufest / Software Developer

March 2022 - August 2023, Remote

- Contributed to the development of MODO, a digital wallet for BBVA Argentina.
- Implemented and launched money transfer functionality (TransferPull) used by a large user base.
- Maintained and extended legacy systems, ensuring stability and backward compatibility.
- Developed two amortization systems for business lending products.
- Worked under high-pressure delivery cycles, collaborating with multidisciplinary teams.

Yobel SCM / Software Developer

August 2021 - March 2022, Remote

- Maintained and enhanced enterprise-level systems.
- Implemented new UI components and improved existing features.
- Assisted in organizing and standardizing UI designs across modules.

Freelance - Bachatours (USA)

November 2023 - February 2024, Remote

- Developed a commercial website for a tourism startup.
- Improved brand visibility and online presence.
- Worked directly with stakeholders to translate business requirements into technical solutions.
